MUHU MULTI STRATEGY HEDGE FUND

RETAIL INVESTOR HEDGE FUND

Focused on positive returns, irrespective
of market conditions

RISK PROFILE | MODERATE
/ LOW

Investment Objective and Strategy

A conservative, quantitatively biased, multi-asset, multi-strategy fund, investing into fixed income, equity, agricultural commodities and derivative product markets. Our investment strategy seeks to algorithmically profit from market inefficiencies and mis-priced risks using a well defined macrothematic process. The fund is focused on absolute returns and target positive returns irrespective of market conditions. The fund aims to deliver net returns that exceed the STeFI by 3% per annum over a rolling 3-year investment period.

Who Should Invest?

Appropriate for investors who have a conservative to moderate risk profile and who aim to preserve and grow the real value of their assets with a low level of capital risk over the medium term.
